

Add a golden glow to your Christmas!

2019 Gold Christmas Ornament Collection

Breathtaking new designs
from our gifted artisans.

Dear Gold Ornament Collector,

If you're like me, just the thought of Christmas makes your heart beat a little faster. That's why I'm excited to inform you of a strictly limited-edition collection of gold ornaments destined to turn your tree into a spectacular masterpiece. Presenting...the *2019 Gold Christmas Ornament Collection*, 12 individually crafted ornaments capturing the joy of the holidays, available exclusively from the Danbury Mint.

Create your own "golden" traditions!

Each of the sparkling 23kt gold-finished ornaments in the 2019 collection is a dazzling holiday treat. The artisans at the Danbury Mint have created the most exquisite, intricately detailed—and merry—ornaments ever! You can choose to display them all on your tree for a spectacular effect, or showcase them in festive settings on a mantel, as a centerpiece for your table, or glistening in the sunshine while hanging in a window. Each ornament is destined to win your heart and become a cherished part of your holiday traditions for years to come.

The magic is in the details.

One look at the ornaments will show you that our designers and craftsmen approached each and every spectacular three-dimensional work of art with one thought—to get each tiny detail absolutely perfect. Each ornament is cut from a sheet of brass, hand assembled and bathed in genuine 23kt gold to create a lustrous finish. Just look at the photo of the *Stagecoach* ornament in the enclosed brochure—with a trio of Christmas gifts sitting on its roof, this whimsical ornament captures the joy of Christmas.

Close inspection of the *Cup of Cocoa* ornament reveals marshmallows floating on top of the cocoa. The year "2019" is debossed on the side of the cup. Details like this abound in every ornament in the collection. Each one is also inscribed with "2019" to help you remember this year for generations.
